

# 10 WAYS TO STUDY FOR THE BIOLOGY FINAL

---

# Biology: What does the Final look like?

- **Final is a comprehensive test on all topics from 2<sup>nd</sup> and only 2<sup>nd</sup> Semester.**
- **Accounts for 10% of the student's 2<sup>nd</sup> Semester grade.**
- **Students have 90 minutes to complete.**

# Biology: How should my student prepare?

## 1) Come to review sessions!

**General Biology: All times are 3-4p**

**June 20<sup>th</sup>—Woodard (room 1207), Grant (room 2115)**

**June 21<sup>st</sup>—Gillespie (room 1207), Willson (room 1421)  
and Davis (room 1407)**

**June 24<sup>th</sup>—Gillespie (room 1207), Davis (room 1407)**

**June 25<sup>th</sup>—Nelson (room 1311)**

Biology: How should my student prepare?

**1) Come to review sessions!**

**It helps if you prepare a head of time for these, and come with a list of questions you want answered.**

Biology: How should my student prepare?

## 2) Study Guides.

- Complete the study guide *ahead* of the in class review days so that you have time to ask questions and study with classmates.

Biology: How should my student prepare?

**3) Quiz your self  
and your peers.  
Find a study buddy.**

Biology: How should my student prepare?

**4) Look back through old worksheets/labs/assignments.**

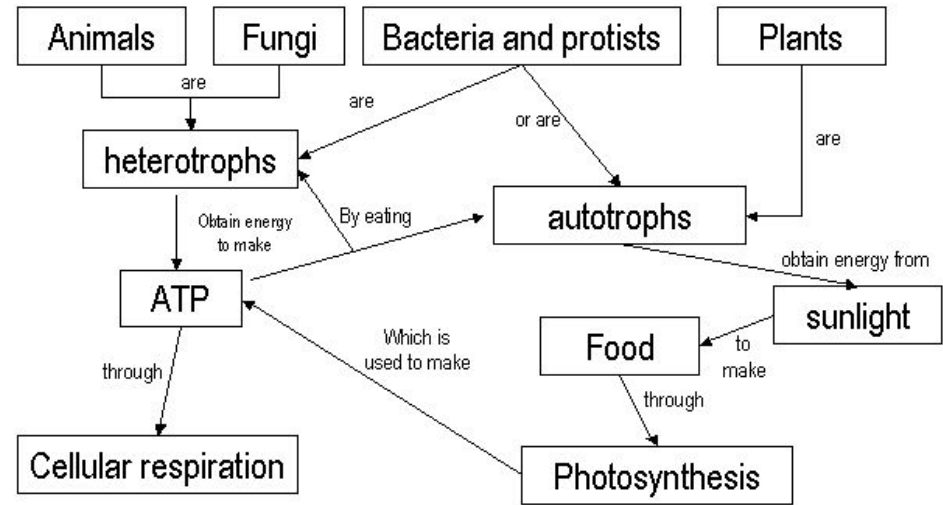

**You can generate questions to practice with.**

## 5) Vocabulary

An effective way to study with vocabulary is to make concept maps with all the words for a certain unit.

Try and connect each word to another word, explaining the relationship between them.

Biology: How should my student prepare?

**6) Look back through your notes and highlight things you need to review.**

Biology: How should my student prepare?

## **7) Make a study guide.**

**The act of writing down information/illustrating processes makes it easier to remember the information.**

Biology: How should my student prepare?

## 8) Kahoots

Mr. Gillespie has Kahoots for each unit we've done this semester:

<https://www.youarebiology.com/kahoots1.html>

Semester 2 started with Unit 7.

The most efficient way to use Kahoot while studying is to find a friend and each make your own that you then both take.

## **9) Form Study Groups**

**It's always more fun to study in a group!**

Biology: How should my student prepare?

## 10) YouTube Videos

**Confused on a topic? Look it up on YouTube. Both Bozeman Science and Amoeba Sisters are good for our general biology level.**

**Remember:**

**-Don't Procrastinate!**

**(Also prioritize your studying so you are studying for the finals you will take first.)**

**-Don't Panic!**

**-Get a good night's sleep, and eat a good breakfast the morning of.**
